

# Equal Opportunities Rep

Mike Livesey, first year studying history.

## Why I want to be equal opportunities rep

I love getting involved in different things around the college, and want to be able to help out some more in establishing the atmosphere of the Catz community.

Making access to opportunities fair and equal for everyone is my real passion.

## Why I would make a equal opportunities rep

1. I want to make sure everyone's college marriage (one of the things I'd be organising) is an event to remember so that the kids can be brought up in the best possible environment!
2. I would do as much as I could to make the transition for college kids and visiting students run smoothly by writing them letters/emails myself if you don't want to!
3. I work for David Lammy MP (the one who keeps bringing issues about equal opportunities at Oxford colleges up in parliament and in the press) so I would be able to directly involve Catz in sorting out the wider issues about equal opportunities and access.
4. I want to make sure everyone at Catz who wants to get involved can do so – so I will make my position open for other people's contributions.
5. I promise to get involved with as much stuff that Ashleigh is doing as access rep to make Catz as open and friendly a place for prospective students as possible.
