

ROSIE

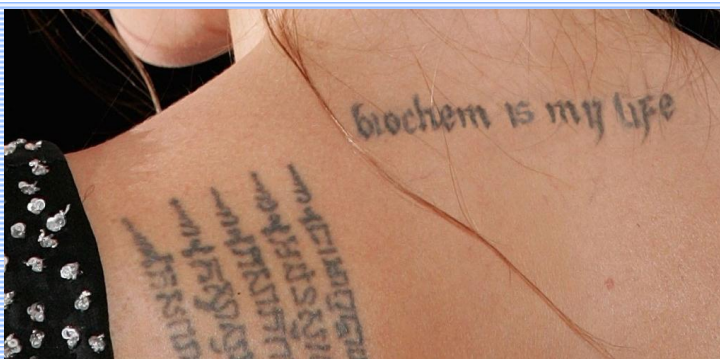

for Publications Rep

Well known facts about me:

- I can make mind blowingly good posters
- I'm a biochemist so I get stuff done
- I'm generally amazing at whatever I have to do
- I have 3 pet ducks

Lesser known facts about me:

- My skillz have landed me lead roles in many blockbuster movies
- Angelina Jolie had the tattoo on her back changed for me

Why?

Because I have a way with Photoshop and I need an excuse to use it

I'm a first year Biochemist but don't hold that against me; I'm not a very good one

one

My true love is actually

PUBLICATIONS!
