

Ben for Treasurer

Hi, I'm Ben, studying engineering science in first year. As treasurer, I would like to:

- Continue to review spending, such that we get the best value for money out of the budget
- Engage with the Environment and Ethics rep to support sustainable investment
- Work with others in the JCR to be accommodating whilst realistic about funding

- Improve the 'Catz Cutz' card, encouraging more outlets to join the scheme
 - Produce regular spending reports, to ensure transparent spending
 - Continue to financially support productions in Oxford, a good way to bring in revenue
- Support the current efforts to separate rent and utilities costs, as a way of encouraging energy saving throughout college.

As for me, I'm organised, I love excel more than is healthy, I like to think I'm approachable by anyone, and am really enthusiastic about helping to run this brilliant JCR community.
