

DUNCAN FIELD

Running for IT rep

A BIT ABOUT ME

Hey, I'm Duncan, a 1st year Engineering student interested in becoming the next IT rep for Catz. I've used a computer a couple of times and I have experience with creating websites, using Google and photoshopping people's faces onto animals. I've think those are the most important skills anyway.

QUALITIES

- ✓ Dedicated and enthusiastic, and I would genuinely enjoy the role.
- ✓ Organised, quick to reply to emails and I can work to a tight schedule.
- ✓ Friendly, willing and happy to listen to suggestions.
- ✓ Knowledgeable about IT systems, including the software and hardware involved.

PROMISES

- ✓ I will keep the JCR website up to date and make improvements when necessary, because I understand the importance of it being accurate and accessible to everybody in the college.
- ✓ I will also carry out all other duties to the best of my ability.

OBJECTIVES

Catz IT facilities generally work well, but I would be more than happy to push to resolve issues which are brought to my attention. Everybody should be able to have their say in how the IT facilities are run and what information is available.
